

### **In the Specification**

At page 1, the paragraph inserted before the "Technical Field" by the amendment dated February 22, 2002, has been replaced with the paragraph shown below:

### **CROSS REFERENCE TO RELATED APPLICATION**

This patent application is a Continuation Application of U.S. Patent Application Serial No. 09/389,533, filed September 2, 1999, now U.S. Patent No. 6,403,442 B1 which issued June 11, 2002, entitled "Methods Of Forming Capacitors and Resultant Capacitor Structures", naming Alan R. Reinberg as inventor, the disclosure of which is incorporated herein by this reference.
